PRODUCT BULLETIN

SUBJECT: Brighten Up[®] Series Classic Vusion[™] Diffuser Improvements

Solatube[®] International, Inc. announces that improvements have been made to the Brighten Up[®] Series Classic Vusion[™] Diffuser.

Description of Change

Improvements have been made to the Classic Vusion Diffuser. We have added a slight etching to the tooling that now gives the Vusion Diffuser a softer appearance. Please note that the light output, efficiency and thermal properties of the Classic Vusion Diffuser have not changed as a result of these improvements.

Availability

This is a running change and will be seen in new orders of 160 DS Classic Vusion Diffusers effective immediately. 290 DS Classic Vusion Diffusers should be seen in new orders within the next few weeks.
